## Buffalo Heads

The Stinger Buffalo Head allows multiple frac lines to be connected to our isolation tools for higher pumping rates.

### Specifications

Pressure ratings of:

- 69 MPa (10,000 psi)
- 103.5 MPa (15,000 psi)

Equipped with bores of:

- 2-9/16"
- 3-1/16"
- 4-1/16"
- 7-1/16"

### Features

- Highly engineered and patented 45° angled reduce wash and friction
- Can accommodate 3, 4 or 5 frac lines for specific fracturing needs to ensure proper performance
- Capable of connecting to all API flange specifications
